NEW FINIAL OPTIONS

NEW FINIAL OPTIONS for 1" rods: (shown at 50% of actual size)

F140

F140B

F141

F141B

NEW FINIAL OPTIONS for 1 1/2" rods: (shown at 50% of actual size)

F142B

F142

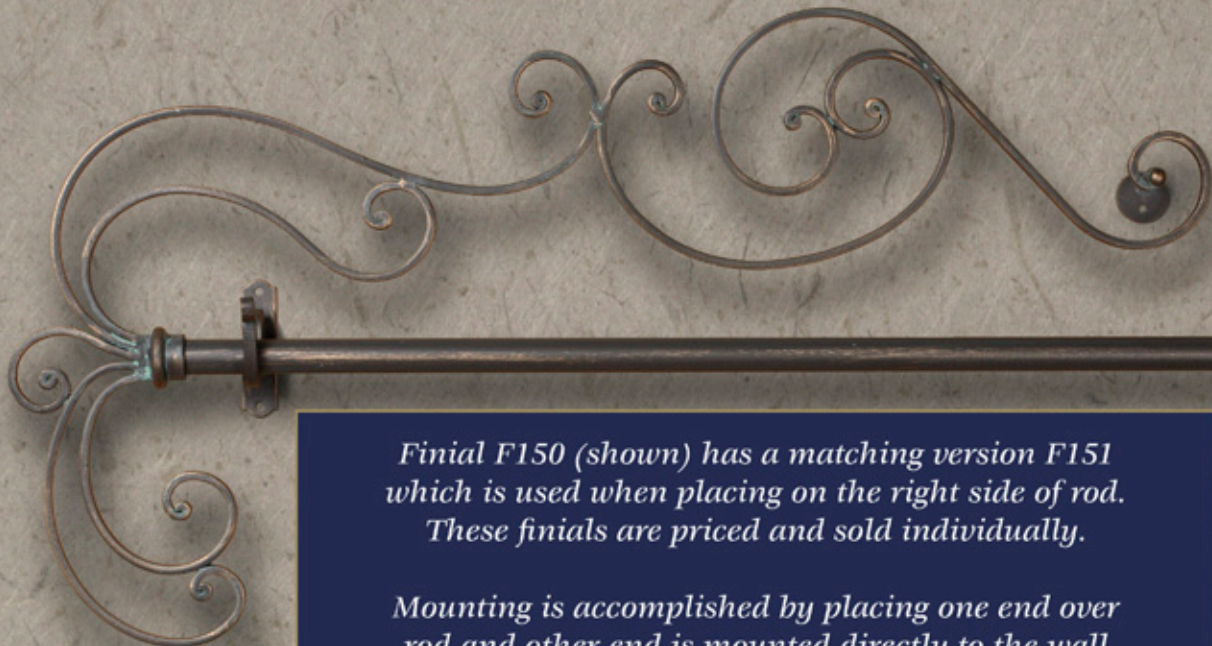

F143B

F143

NEW FINIAL OPTION for 1" to 1 1/2" rods: (shown at 20% of actual size)

F150

*Finial F150 (shown) has a matching version F151 which is used when placing on the right side of rod. These finials are priced and sold individually.*

*Mounting is accomplished by placing one end over rod and other end is mounted directly to the wall as shown. A matching holdback T117 can also be used as a decorative center piece for longer rod lengths.*

*Please see page 6 for image of T117.*

NEW FINIAL OPTIONS for 1 1/4" to 1 1/2" rods: (shown at 50% of actual size)

F132

F134

NEW FINIAL OPTION for 1 3/4" to 2 1/2" rods: (shown at 50% of actual size)

F133

BRACKET OPTIONS (shown at 50% of actual size)

SCR1  
SCROLL OPTION

For -D size brackets which have an extension of 6" or larger. This scroll option can be used instead of the straight bar normally used to add extra support for long extensions. Shown on bracket B49-D this option can be added to any of our other large bracket styles.

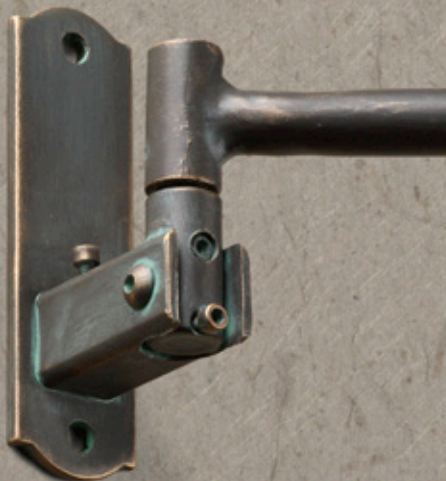

B88L

Bracket extension length is approx. 2 1/2"  
Extension Length will vary slightly according to rod size used.

This bracket is identical to B88 with the addition of the leaf as shown.

ADJUSTABLE SWING ARM (shown at 50% of actual size)

SA30  
Adjustable Swing Arm

Swing Arm SA30 can be used with the following rod styles:  
RDR58, RDR34, RDS58, RDS34, RDQ12, RDQ58, RDQ34  
Backplate dimensions: 5" x 1 1/2"  
Maximum Rod Length: 36"  
Rod and finial priced separately.

Adjustable swing arms provide more flexibility during install. Wall conditions or fabric weights can create situations in which the rod will not appear to be level after installation. Adjustable swing arms allow the installer to level the rod AFTER the swing arm bracket has been mounted to the wall.

T120	4"	4"					

**FINIAL SIZE INFORMATION**

Item#	Width	Height		Item#	Width	Height	<p><i>All brass versions of our finials have the same dimensions as our painted finials. For example, F140B will have the same dimensions as F140 which is listed to the left.</i></p>
F132	4"	3 1/2"		F142	3 3/4"	1 3/4"	
F133	5"	4 1/4"		F143	4 1/4"	1 3/4"	
F134	4"	3"		F150*	34"	18"	
F140	2 5/8"	1 1/4"		F151*	34"	18"	
F141	3"	1 1/4"					

*\*When ordering finials F150 and F151 please note your usable rod length will decrease due to finial overlap. The amount of rod overlap per finial is 2". For example, if using both an F150 and F151 on a rod, you would need to add 4" to your rod length. Please factor this in when determining overall rod length for your order.*
